

# Therapeutic Benefits of Hydrogen

Experience The Gift of Nature

molecular

hydrogen

# Hydrogen Discovery

## How It All Began...

*In the 1950's, scientific research was conducted into several unique locations around the world.*

*For thousands of years these places are known as a natural source for*

**“Miracle Water”**

Lourdes, **France**

Nordenau, **Germany**

Tlacote, **Mexico**

**Japan & Himalayas**

# Why Hydrogen?

- Smallest element on the planet, hundreds of animal and human studies proving hydrogen is very therapeutic in over 170 human diseases
- Most powerful selective antioxidant. Fights free radicals
- Neuroprotective “protecting the brain from aging and injury”
- Non Toxic even in high concentrations “Safe for all” Humans & Animals
- Anti-inflammatory, Anti-aging
- Improves fat and glucose metabolism – Great for diabetes and weight loss
- Improves energy production and storage in the body

# Free Radicals & Toxins

- Free radicals are linked nearly to every disease process
- Every day each of our 70 to 100 Trillion cells are attacked by free radicals. Causing oxidation and inflammation
- We can't escape free radicals.
- Our bodies can't keep up with the abundance of free radicals.

# Oxidation & Aging

These apples demonstrate how oxidative stress breaks down your cells, causing premature aging and disease.

Normal Cell

Cell Attacked by Free Radicals

Cell with Oxidative Stress

# Anti-oxidants

- The solution for aging, toxicity and inflammation
- Compounds that protect cells from damage and bind to free radicals
- Typically found in your usual whole food like Blueberries, Green Tea, Vitamins, fresh fruits and vegetables.

# Not All Antioxidants are Created Equal

**Supplements**

**Food**

**Hydrogen  
Water**

# Facts about Antioxidants

- You can become toxic with certain forms of antioxidants like Vitamin A and E.
- Food and vitamin based antioxidants must be digested when this happens. These antioxidants also become free radicals themselves.
- Food and supplement form antioxidants are site specific. Meaning they only be used in certain areas of the body and will not be used where they are needed most.

# Why Hydrogen is the best Antioxidant

- Hydrogen has no vitamins attached to it therefore will never build up in your body creating toxicity even at highest concentrations
- Hydrogen is the smallest antioxidant and is bio available getting everywhere in your body and will go where ever it is needed and is not site specific like food or vitamin forms of antioxidants
- Hydrogen is not digested it is absorbed so there is no waste free radicals to be left behind to go on and create more oxidation.
- This molecule will assist your body to make higher concentrations of its own antioxidants
- Selective and will only go after toxic free radicals and turn them into water creating higher hydration levels.

# Enagic Hydrogen Machine

- Now you can enjoy the most antioxidants ever devised in a small device
- Convenient & compact
- Patented technology that does not create  $O_2$ , ozone and chlorine gas
- Exceptional quality with a long life expectancy of 30 years
- 5 year manufacture warranty
